SKILLS

Programming Languages

Java, Angular, Typescript, HTML, CSS

Libraries & Frameworks

Spring, Spring Boot, Robot (with Selenium Library)

Tools & Platforms

Git, GitHub, Heroku, WordPress, Firebase, Docker, Figma, Vercel, Google Cloud Platform

KEY PROJECTS

Anaplan Connector | BITS Pilani

An interoperability connector that connects any http client (source system) with Anaplan with the help Google Cloud Platform (Approaches: Real time & Bulk Data).

Skills used: Java, Spring, GCP – Pub/Sub, Cloud Run, Cloud Storage, Cloud Logging, Anaplan APIs, HTML, CSS, Bootstrap (Thymeleaf template engine)

Swagger | Spring | Google API

A swagger rest API client based on Google cloud storage APIs. And a data collector services that uses the APIs and stores the specific data to database. Only users having access to the particular endpoint can now access the new API that gives result from the database.

Skills used: Java, Spring Boot, Spring Security, Google Cloud Storage APIs.

SC Communication

An angular website that uses google cloud storage to store its unstructured data (images/videos) to demonstrate its work.

Skills used: Angular, Google APIs

UX Design Projects

Restaurant's Mobile application | Figma
Recipe Guide | Adobe XD

CAREER OBJECTIVE

Experienced Full Stack Developer, proficient in designing, developing and maintaining microservice based architecture and UI while working with cross functional teams to deliver high performance solutions.

Seeking opportunities to contribute to innovative projects and enhance my skills.

WORK EXPERIENCE

Application Developer | IBM

Jan '24 – Present

- Design, develop, maintain microservices, front-end for the applications
- Managing database, and maintaining code versions using Git
- Creating unit test cases to test functionalities of the modules
- Preparing HLDs and LLDs, and API Integrations
- Automating front-end – using robot framework
- **Skills used:** Java, Spring Boot, Angular, Robot framework, Git, SQL, Rest APIs, Swagger
- **Clients included:** Daimler trucks innovation center India (DTICI)

Software Engineer | Wipro

Jan '21 – Dec '23

- Design, develop, maintain microservices, handling data integrations
- Carrying out proof of concepts, preparing LLDs
- Suggesting suitable APIs to perform integrations with respect to Anaplan
- Creating unit test cases to test functionalities of the modules
- **Skills used:** Java, Spring boot, Anaplan, Google Cloud Platform, Rest APIs, Swagger
- **Clients included:** Anaplan, British Telecom

Sr. Technical Support Engineer | Wipro

July '19 – Jan '21

- Handling technical escalations with respect to server issues
- Providing root cause analysis for any issue that is caused in hardware as well as software
- **Skills used:** Linux, Shell scripting, Communication, CAS Storage
- **Clients included:** Dell EMC

Intern | Ministry of Statistics & Prog Implementation

June '18 – Aug '18

- Revamping existing UI to the new defined one
- **Skills used:** HTML5, CSS3, JS, PHP, AJAX

EDUCATION

Masters in Technology	BITS Pilani	2020 – 2023
Bachelor of Computer Applications	GGSIP University	2016 – 2019
Higher Secondary School	CBSE	2015 – 2016
Secondary School	CBSE	2013 – 2014
